SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the

accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

OMB Control Number: 2120-0725

Title: Mitsubishi MU-2B Series Airplane Special Training, Experience, and Operating Procedures

Form Numbers: There are no FAA forms associated with this collection.

Type of Review: Renewal.

Background: In response to the increasing number of accidents and incidents involving the Mitsubishi MU-2B series airplane, the Federal Aviation Administration (FAA) began a safety evaluation of the MU-2B in July of 2005. As a result of this safety evaluation, on February 6, 2008 the FAA issued Special Federal Aviation Regulation No. 108—Mitsubishi MU-2B Series Special Training, Experience, and Operating Requirements. This Special Federal Aviation Regulation (SFAR) established a standardized pilot training program. The collection of information is necessary to document participation in, completion of, and compliance with the pilot training program for the MU-2B under subpart N of CFR part 91, issued on September 7, 2016, which superseded SFAR No. 108.

Respondents: Approximately 20 part 91 training providers, and approximately 400 active MU-2 pilots.

Frequency: Every year (pilots); every two years (training providers).

Estimated Average Burden per Response: Pilots: Logbook endorsement and training course final phase check = 10 minutes. Training providers: Submission of training program = 4 hours.

Estimated Total Annual Burden: Pilots: 67 hours. Training providers: 40 hours. Total: 107 hours.

Issued in Washington, D.C. on June 21, 2019.

Dwayne C. Morris,

Project Manager,

Flight Standards Service, General Aviation and Commercial Division.
